To win
big races, Dale
Earnhardt, Inc. knew it had
to meet exacting mechanical tolerances. And we
helped. Using OGP® dimensional metrology
systems, like the versatile multi-sensor SmartScope®
Quest 600, Dale Earnhardt, Inc. nailed down critical
measurements with submicron precision. We can
help you meet exacting tolerances in your business,
too. Call us. We'll work with you so you can win,
too. With SmartScope Quest from OGP.
